NordLayer® ✕ RAZZBERRY'S CYBER SECURITY SOLUTIONS INC

Business cases

About NordLayer

NordLayer provides flexible and easy-to-implement cybersecurity tools for businesses of any size or work model developed by the standard of NordVPN.

We help organizations secure networks in a stress-free way. NordLayer enhances internet security and modernizes network and resource access with technical improvements aligning with the best regulatory compliance standards. Helping organizations to adopt **FWaaS**, **ZTNA**, and **SWG** principles, NordLayer is focused on the **Security Service Edge** of cybersecurity services.
